## **THE UNITED GREEN MOVEMENT PARTY REVIVES THE SPIRIT OF UFUNGAMANO HOUSE**

Fellow Country men and Women, the United Green Movement Party is on this 24<sup>th</sup> day of April 2022, giving nomination certificates to 96 aspirants from across the country. We have sent out 2 Governor Candidates, 2 senators, 15 Members of Parliament and 77 Members of the County Assembly. The total number of women aspirants are 30. As a party that believes in equality, we would like to encourage as many women as possible to offer themselves for elective offices in each election.

The United Green Movement Party prides itself as Kenya's Green Party that promises total inclusivity. The candidates that we send out today, come from 24 counties of Kenya. We are working on progressively, having a footprint across the whole country. County by County, tribe by tribe. Like is evidenced in the Candidates that we have sent out today, we have representation from most tribes of the Country. We are working on making the United Green Movement a national political party. A party with the face of Kenya. The place of persons with disability, minorities and marginalized communities in UGM is assured.

We have today set forth our candidates with a popular version of our political party manifesto. The manifesto is grounded on the five pillars of Youth Unemployment, Environment, Economy, Rule of Law, Social Justice and Equality. We will make promises to the electorates. Promises that we can deliver on. As the United Green Movement Party, we know that change in the country is going to be based on firm foundations of honesty, integrity and a clear plan on how to deliver on the promises. We also know and appreciate that the change is going to be both radical and incremental.

Our convening at Ufungamano House today is not a mere coincidence. We know that the country has almost fallen into a binary of two coalitions. Political parties that carry with them many things from Kenya's interesting past. We came to Ufungamano to revive the spirit of Ufungamano

house. It is at Ufungamano house that the spirit of Kenya's reform was born. We trust and believe that as we send forth our candidates out from Ufungamano House, the spirit of reform will be born a new. We trust we will lead Kenya to a rebirth. The United Green Movement Party promises a rebirth of the spirit of pluralism as we now move to and after the elections of August 2022.

As the United Green Movement Party we would like to welcome all Kenyans of good will to join our Party. Kenyans who believe that the country deserves better. Kenyans who are tired of the decadence in the governance sector. Kenyans who want better jobs and jobs for our young people. Kenyans who want the best for our economy, not one that is heavily debt laden. An economy that is tired from irresponsible borrowing. We would like to invite Kenyans who know that protection and conservation of the environment is a must do. Given the importance of the environment in the place of sustainable development and its place in mitigating climate change. We would like to invite as many as would be possible to join us, as Kenyans, to team up and to work in concert for a one united Country. A country that is prosperous, united with plenty found within our borders.

God Bless the United Green Movement. God Bless Kenya.

Signed on this 24<sup>th</sup> Day of April, 2022

1. Neto Agostinho- Co- Leader
2. Hon. Hamisa Zaja – Co- Secretary General
